EV

## **Electrician/ EV Charger Installer**

We are looking for an electrician to join our team for mostly EV installation work (domestic and commercial) but there may be the odd general electrical install or repair (to mix it up a bit).

Experience in EV charging would be beneficial but not required as full training will be given, and a keen desire to develop further within the renewable industry.

Our work is nationwide so will involve nights away from home but we try to keep this to a minimum and let you decide on whether to travel or stay out.

We welcome applications from people looking to be employed or subcontractors and rates/ benefits are negotiable with high rates for the most suitable applicants

One of our company's main highlights is customer service and quality workmanship so a good working attitude will be expected as well as knowledge

### **About you:**

- Fully qualified electrician to level 3.
- Hold 18th edition
- Inspection and Testing qualification (2391 or equivalent)
- Experience with three-phase installation repairs
- Independent and innovative
- Driving license
- Own hand tools
- Attention to detail

### **SP Group offer**

- **Flexibility**
- **Negotiable rates**
- **Van**
- **Training**
- **Bonuses**

**ALL APPLICATIONS MUST BE MADE IN WRITING** – Please email your expression of interest to [info@sp-group.uk](mailto:info@sp-group.uk)

You must include your contact details and a copy of your CV, and we will respond to your enquiry as soon as possible.
